It is a laudable ambition to reach the top of the ladder of success. But many a man who reaches the topmost rung finds his position a torment instead of a triumph. He has sacrificed his health to success.

A man can succeed and be atrong if he heeds Nature's warnings. When there is indigestion, loss of appetite, ringing in the ears, dizziness, spots before the eyes or palpitation of the heart; any or all of these symptoms point to weakness and loss of nutrition. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. By perfect and abundant nourishment distributed to each vital organ it enables the co-operation of all the organs to preserve the perfect health of the body.

"For about two years I suffered from a very obstinate case of dyspensia," writes R. R. Secord, Esq., of 13 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not bear any solid food in my stomach for a long time; felt melancholy and depressed. Could not sleep nor follow my occupation. Some four months ago a friend recommended your Golden Medical Discovery. After a week's treatment I had derived so much benefit that I continued the medicine. I have taken there bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

FEDERATION OF LABOR.

At the session of the American Federation of Labor in New Orleans yesterday 87 resolutions were submitted. Many of them related to minor points of organization, to requests that firms be put on the "unfair list" and to claims of jurisdiction. Outside of these the following are some of the resolutions of chief interest:

The hall echeed with cries of "Oh, too bad! too bad!"

The students pounded on the tables till the historic portraits about the hall trembled in their frames. Then they pounded their plates with their knives and forks until the negro waiters grouped along the walls shuddered.

"My friends," continued the speaker, 'I am just like any other woman.' There were cries and groans of "No! no! no! Shut off on that score?" Mrs.

The priest makes a statement which is corroborated by several witnesses, that a party of Americans, headed by an archeological expert who gave the name of Heverick, arrived at Yesca several weeks ago and went from that place into the mountains accompanied by three Mexican guides. The archeologist obtained his bearings by means of a chart which he said had been copied from an Aztec stone tablet in the National Museum in the City of Mexico.
